Exciting Developments in Social Work Compact Legislation

For Immediate Release

April 12, 2024

Kansas Becomes 7th State to Pass Social Work Compact Bill

We are thrilled to announce a significant milestone in the advancement of social work legislation as Kansas becomes the 7th state to pass the Social Work Compact Bill. This landmark achievement not only underscores the growing recognition of the importance of social work across state lines but also paves the way for enhanced collaboration and mobility among social work professionals.

The passage of the Social Work Compact Bill in Kansas is a testament to the dedication and advocacy efforts of social workers, policymakers, and stakeholders who have tirelessly worked towards streamlining licensure processes and facilitating reciprocity. This legislation not only strengthens the profession but also ensures that individuals in need of social work services can access them more efficiently and effectively.

As the National Association of Social Workers, we applaud the state of Kansas for their leadership and commitment to advancing the field of social work. We are confident that this milestone will serve as inspiration for other states to follow suit and prioritize the passage of similar legislation.

New Jersey Compact Bill Progress: Advancing Through Senate Committee

In other exciting news, we are pleased to announce that the Compact Bill has taken a significant step forward on its journey towards enactment. On April 11th, the Compact Bill was sent to the Senate Committee, bringing us one step closer to its passage. This development signifies a crucial milestone in our efforts to promote interstate licensure reciprocity and ensure the mobility of social work professionals.

We extend our sincere appreciation to all those who have supported and advocated for the Compact Bill thus far. Your dedication and commitment to advancing the profession of social work have been instrumental in driving this legislation forward.

As we continue to work towards the passage of the Compact Bill, we encourage all members of the social work community to remain engaged and active in advocating for its adoption. Together, we can make a meaningful impact and ensure that social workers have the tools and resources they need to serve individuals and communities across state lines.
